

10 YEARS ANNIVERSARY CONFERENCE

Europe's energy market transformation and the impact of smart and disruptive digital technologies

Monday, 4 June

Autoworld, Brussels

AGENDA

10 :00 – 13 :00 Best practices for a successful smart technology roll-out Lessons learnt and recommendations from first movers

Introduction from Maher Chebbo, ESMIG President and Chief Business Innovation Officer for Digital Energy at General Electric

Speakers:

- Audrey Gallacher, Energy UK - UK's experience with smart meters
- Janine Rumph, Netbeheer Netherlands - The smart meter roll out in the Netherlands
- Mait Rahi, Elektrilevi Estonia - The smart metering program in Elektrilevi
- Carl Lidholm, Tieto - Smart meters in Finland, lessons learned from the land of thousand lakes

Panel discussion, moderated by Maher Chebbo, GE

13 :00 – 14 :00 Lunch

14 :00 – 17 :00 How will Europe's energy system evolve in the next 10 years, what are conditions to make this happen and what is the role of new technology?

- John Harris, ESMIG Vice-President and Head of Regulatory and Governmental Affairs at Landis+Gyr - ESMIG's Vision for the next 10 years
- Howard Porter, BEAMA - Electrification by design
- Manuel Sanchez-Jimenez, European Commission - What new technologies should bring to the energy market
- Monika de Volder, BEUC - Digitalisation and decentralisation of energy markets – the consumer perspective
- Nick Beglinger, CleanTech21 - How distributed ledgers (aka 'Blockchain'), IoT & AI will disrupt energy provision, turning it upside-down

Panel discussion, moderated by Frances Williamson, Chameleon

17 :00 – 18:00 Reception
